

SPEAKER TOPICS

- Are Algorithms the new gold for business?
- Humanising technology to beat the odds of digital failure
- Making technological chaos work in your favour
- Shaping digital agility to respond to a changing future
- Becoming a digitally mindful organisation

David is a Certified Public Accountant and holds a master's in business administration (with Distinction) conferred by Warwick Business School. He also acts as a Mentor with the Business School supporting students in launching their innovative start-ups. He is co-author of several papers published in the Wiley Encyclopaedia of Management and has delivered numerous lectures, presentations and speeches in conjunction with various Universities, Educational Institutions and Conferences. His upcoming book Digital Made Simple reflects some of his thoughts and experience in implementing successful digital programs through a humanistic, straightforward approach.

David Galea
DIGITAL MADE SIMPLE

Innovator, Futurist and Digital Transformation Leader

Director – Digital Leadership – Centigo
Mentor – Warwick Business School
Author - Digital Made Simple

David has more than twenty years of experience in successfully implementing digital transformation programs in organisations ranging from ambitious micro enterprises launching their new emerging technologies in the marketplace, right through the largest corporations forming part of the Fortune 500 list. He helped various entrepreneurs in shaping their business models based on DLT, IoT, Bluetooth, AI, ML, and Cloud technologies (amongst others) to launch innovations in the marketplace.

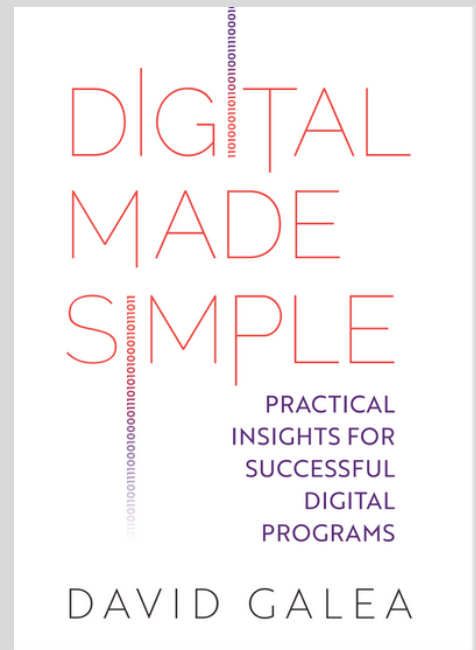

Moreover, David also actively led and/or participated in several large-scale digital programs including the rollout of 4G for T-Mobile UK, the development of Program and Project Management framework, policies, and procedures for British Petroleum as well as managed the enhancement of the digital experience of the Epistrofi loyalty program on behalf of Eurobank. In the Middle East, David was appointed as a Subject Matter Expert (SME) assigned to review operating practices associated with technology, process and people enablers of several public sector entities against established governance excellence models and provide recommendations for improvement. In Malta, David has led the development of a national competitiveness strategy that acted as a blueprint for the economic growth of the country for the period between 2006 and 2015. More recently, David also spearheaded the reform of the Energy Sector in the country leading to a shift from Heavy Fuel Oil to Natural Gas.

"Throughout my government public service experience I had the pleasure of working with David on a number of very big projects, ranging from infrastructural to strategic. In all he proved to be incredibly hard working and intelligent. He remained always focused and can be a tough negotiator even in difficult circumstances. I admired his tenacity."

Ronald Mizzi - Permanent Secretary at Ministry for Economy, EU Funds and Lands - Government of Malta
